

</YOÉNIE DUPUY>

COMPUTER SCIENCE STUDENT

JOB OBJECTIVE

Second-year University student in Computer Science in Annecy, France. I am driven by the challenge of turning ideas into functional and elegant web experiences. Skilled in **HTML**, **CSS**, **JavaScript**, and **PHP**, I also handle **PostgreSQL** for robust and efficient data management. **Curious** and **motivated**, I am seeking an **internship** in **web development** to apply my skills through real-world projects.

WORK EXPERIENCE

Oct 2025 - Jan 2026: Team University Project Saé 3.01

IUT Annecy: Annecy-le-Vieux, France

- Designing and developing a web platform to manage a rental system like Leboncoin, with user interface (**HTML**, **CSS**, **JS**) and complete back-end (**PHP**, Laravel). Project carried out in SCRUM

2025 - Present: Sponsorship of Students

IUT Annecy: Annecy-le-Vieux, France

- Supporting and integrating the first-year students in their Bachelor's Degree of Technology in computer science.

2025: Team University Project Saé 2.01

IUT Annecy: Annecy-le-Vieux, France

- Designed a **WPF (XAML + C#)** interface to allow the management of products, orders and resellers of Pilot's company.

2024 - 2025: Team University Project Saé 1.05

IUT Annecy - Annecy-le-Vieux, France

- Designed the interface of an e-commerce website for a soap factory using **Figma**, based on personas.

Summers 2023 - 2025: Cleaner Operative

SARL Team Raclette (cleaning, 4 persons) - Sillingy, France

- Cleaned company offices and homes.

2023 - 2024: Volunteer Gymnasts' Judge

Club de la Mandallaz - Sillingy, France

- Judged the gymnasts' passage in internal competition.
